### **Objective:**

Enthusiastic and dedicated fourth-year Bachelor of Computer Science student with expertise in HTML, CSS, JavaScript, React, and MySQL. Developing skills in full-stack development with a portfolio of web applications. Eager to leverage skills and knowledge to contribute to innovative projects in the tech industry.

### **Education:**

Bachelor of Computer Science (Expected Graduation: July,2024) Egerton University, Nakuru.

### **Skills:**

1. Proficient in HTML, CSS, JavaScript, React, and MySQL
2. Understanding of full-stack development principles
3. Experience with version control systems like Git
4. Familiarity with Agile development methodologies (scrum)
5. UI/UX Design using Figma..Wordpress and Joomla
5. Excellent problem-solving and analytical abilities
6. Strong communication and teamwork skills

### **Experience:**

Attaché at Postal Corporation of Kenya, Nakuru During my attachment at the Postal Corporation of Kenya, Nakuru, from May to July 2023, I gained valuable hands-on experience in networking, including router and switch configurations, as well as network troubleshooting. Additionally, I developed proficiency in hardware repair, encompassing CPUs, scanners, and printers. Engaging in user support activities, I enhanced my ability to address end-user issues promptly and effectively. This immersive experience broadened my technical skill set and reinforced my commitment to delivering reliable solutions in a dynamic work environment.

## **Projects:**

1. Project Name: Part-time claim management and processing system

Description: A system that manages claims of part time employees in an organization.

Technologies: HTML, CSS, JavaScript, React, MySQL

2. Project Name: Weather App
